President R. A. Falconer,  
University of Toronto,  
Toronto.

Dear President Falconer-

Once again I am approaching you  
as a friend who in past years has so generously  
assisted me in securing Christmas gifts for the  
patients and nurses in the Hospital.

As you will remember a Christmas  
tree is given and an evening's entertainment provided  
for the patients and nurses by the best local talent  
who generously give their services free of charge.

Each patient and nurse receives a gift  
and a pleasant evening is spent by those who would  
otherwise be deprived of a great deal of the joy and  
gladness of Christmastide through enforced absence from  
their homes.

Presuming on your kind response of  
last year, may I ask if you would care to again help me?

Sincerely yours,

*M. H. Macmillan*
